**Insect Spray**

Insect Spray is effective against a wide range of ticks and mites, including snake mites, red mites and sub-cutaneous species. Symptoms of mite infections are listlessness and decreased activity, a dull appearance and crusting of the scales.

Active ingredients: - Ivermectine 0.02%
 How to administer: Spray at the skin.
 Shelf life: 24 months

Item No	Content	Tray / Carton
18595	50 ml	3 / 24
EAN: 8711231185955 / GB		
18575	50 ml	3 / 24
EAN: 8711231185757 / NL		

**Eye and Skin Ointment**

Air pollution, pollen etc. can irritate the eyes of reptiles, making them sore and inflamed. Sand and crumbled tree bark make excellent bedding for reptiles, but can be dusty or cause minor abrasions to skin and eyes. This may result in dryness, irritation or puffiness of either eye or skin.

Ingredients: - Vitamin A Ointment (GB)
 - Chloramphenicol (NL)
 How to administer: Place the gel onto the surface of the eye or on the surface of the damaged skin.
 Shelf life: 24 months

Item No	Content	Tray / Carton
18596	5 ml	3 / 24
EAN: 8711231185962 / GB		
18576	5 ml	3 / 24
EAN: 8711231185764 / NL
